Answer the questions after reading the passage given below :

Male lions are rather reticent about expending their energy in hunting – more than three quarters of kills are made by lionesses. Setting off at dusk on a hunt, the lionesses are in front of tensely scanning ahead, the cubs lag playfully behind and males bring up the rear walking slowly, their massive heads nodding with each step as if they were bored with the whole matter. But slothfulness may have survival value. With lionesses busy hunting the males function as guards for the cubs, protecting them particularly from hyenas.

13. According to the passage, male lions generally don't go for hunting because
- (a) They wish to save their vigour  
(b) They want lionesses to get training  
(c) They don't like it  
(d) They are very lazy
14. When the lionesses go in search for their prey, they are very
- (a) Serious                                      (b) Cautious  
(c) Playful                                        (d) Sluggish
