Nokia Placement Paper Technical Questions

• List the difference between HTTP and HTTPS.

• State the full form of VIRUS.

• Calculate the VSWR when a transmission line with characteristic impedance 50 ohms is terminated with a load of i50 ohms.

• When does 'wait conditions' occur in microprocessor?

• What shall be the radiation pattern when plane is perpendicular to Hertizian dipole?

• What is duplexer in radar used for?

• What is the material of Gate in MOSFET?

• What is the full form of FTP?

• Why do medium waves travel faster at night?

• PLL is used for demodulation of.

• What is the expression for XNOR gate?

• What is the efficiency of AM system?

• What is the full form of SMTP?

• What is the speed of Fast Ethernet?

• Why the Uplink and Downlink frequencies are different in a satellite?

• What is the efficiency in an AM system?
