

Information Technology Questions

1. Which of the following is Stack structure?

- A. FIFO (First In First Out) B. LIFO (Last In First Out)
C. FILO (First In Last Out) D. LILO (Last In Last Out)

Ans: B

2. Which of the following is not a logical database structure?

- A) Tree B) Network C) Chain D) Relational

Ans: C

3. Master-slave flip-flop is also referred to as ____

- A) Positive level triggered flip-flop B) Pulse triggered flip-flop
C) Low level triggered flip-flop D) Edge triggered flip-flop

Ans: B

4. Which of the following is defined by Storage class?

- A) Arrays B) Data types C) Scope and Performance D) Strings

Ans: C

5. DMA stands for _____

- A) Direct Memory Access B) Dynamic Memory Access
C) Direct Memory Allocation D) Dynamic Memory Allocation

Ans: A

6. A data warehouse is which of the following?

- A) Contains only current data

Information Technology Questions

- B) Contains numerous naming conventions and formats
- C) Organized around important subject areas
- D) Can be updated by the end users

Ans: C

7. OSI model is having how many layers?

- A) Two B) Four C) Six D) Seven

Ans: Seven

8. Servers are computers that provide resources to other computers connected to a _____

- A) Link B) Hub C) Network D) Loop

Ans: Network

9. The proxy server is used for _____

- A) Providing security against unauthorized users
- B) Processing client requests for web pages
- C) Provide Internet Protocol
- D) Processing client requests for DB access

Ans: B

10. Target of normalization is _____

- A) Minimize the number of entities B) Minimize the number of errors
- C) Minimize the number of redundancy D) Maximize the number of rows

Ans: C

Information Technology Questions

11. Linux is which type of operating system?

A) Windows B) MAC C) Open-source D) Microsoft

Ans: C

12. Verification of username and password is called _____

A) Installation B) Accessibility C) Logging in D) Authentication

Ans: D

13. Computers manipulate the data in many ways and this manipulation is called _____

A) Batching B) Upgrading C) Processing D) Utilizing

Ans: C

14. A web ____ consists of one or more web pages located on a web server.

A) Story B) Site C) Network D) Template

Ans: B

15. C, BASIC and COBOL are example of _____

A) Low-level languages B) High-level languages

C) System programming languages D) Inter related languages

Ans: B
